Friends,

I want to be sure you saw that E2 submitted a comment, attached and linked below, in support of EPA's draft "Assessment of Potential Mining Impacts on Salmon Ecosystems of Bristol Bay, Alaska" relating to the Pebble Mine project. As always, E2 remains committed to emphasizing the economic side of this issue and we plan to continue to highlight the importance of protecting the Bristol Bay fishery for the national economy.

Thank you for all of your hard work on this important matter.

Sincerely,

Marc
